RE: Correspondence dated 8/31/05

During the telephone conversation of 8/29/05, an agreement with respect to the claims was not reached. This letter further states the fact that I do not agree with your decision to close my case. I believe that my invention is different enough from the patents that you had previously brought up to continue to process my patent. I have an absolutely different air pump system and foot switch. I would like to therefore appeal your decision to close my prosecution and would like to know who I need to contact in order to continue processing my patent application. I would also like to know the reason why my patent application, which hasn't been approved yet, is displayed on the internet without my permission. Thank you.

Yann Zimerfeld
